

Product Information Sheet

PVC Complex Flashing

PIN # 1113

Item Description

PVC Complex strip flashing
Size: 12", 18", 24" or 39" wide x 65' long
Weight: 20, 30, 40 & 64lbs

product Number

PF-126507, PF-186507
PF-246507, PF-396507

Product Information

PVC complex strip flashings are heat weld-able flashings designed to join modular units together, flashing parapet walls, curbs, skylights etc.

Method of Application:

Ensure all edges and field membranes that are to be heat welded are clean and dry. Adjust appropriate roofing hand or robotic welder to correct temperatures based on weather conditions. When the weld is complete check seams for void and incomplete welds, cap the seams if necessary.

Storage:

Store in clean dry areas; store in vertical position whenever possible to avoid sagging and creases

Shelf Life:

N/A

Coverage Rates:

- 12" x 65' = 65 ft²
- 18" x 65' = 97.5 ft²
- 24" x 65' = 130 ft²
- 39" x 65' = 211.25ft²
